ON THE BALLOT

Constitutional Amendments & the Midterm Election

NORTH CAROLINA BLACK Alliance

THE AMENDMENTS:

Property Tax Levy Limit

Sounds like tax relief by requiring the state legislature to pass laws limiting how much property taxes may increase. It **actually strips** your county commissioners of local control and hands that power to the legislature. The legislature already has the authority to cut property taxes and is choosing not to use it.

Reduce Income Tax Rate Cap

Sounds like fiscal responsibility by reducing the maximum allowable income tax rate from 7% to 3.5%. It **actually forces** the state to rely on fees and sales taxes that hit working families hardest. Designed to constrain future revenue options for progressive leadership.

Required Voter ID

Sounds administrative by requiring photographic identification to vote for all voters, not just those voting in person. It is **actually an unnecessary anti-voter measure** that creates concern around access to the ballot box.

THE EFFECTS:

Property taxes fund our schools, safety services, and housing. Will limit the power of local government to decide funding for these essential services.

Cutting the income cap in half reduces capacity to fund education, state employee salaries, healthcare and more.

Complicates mail in voting - potentially discouraging students, seniors, disabled people, and rural voters from voting.
